

STANDARD FORM NO. 64

~~SECRET~~

Office Memorandum • UNITED STATES GOVERNMENT

TO : Chief, Engineering Division/OC

DATE:

FROM : Contracting Officer

SUBJECT: Contracts No. RD-79, Task Order No. 7 and (RD)XG-558
with [REDACTED]

25X1

1. Transmitted herewith are two (2) copies of two (2) letters from the subject Contractor dated March 3, 1958 and April 15, 1958, respectively, concerning property under the subject contracts.

2. In his letter of April 15, 1958, the Contractor has requested that the items listed therein be transferred to Contract No. (RD)XG-558. This is supplemental to his request of April 8, 1958, to transfer GFE to Contract No. (RD)XG-558.

3. For your information, the earlier request was forwarded to your office through the Stock Management and Requirements Section/SD on April 21, 1958.

4. The Contractor has also proposed in his letter of March 3, 1958, to set up a bailment or retainer contract in order to facilitate record keeping for the control of Government-furnished and acquired property.

5. Because all of the Agency property now located at the Contractor's plant is being utilized in Commo's projects, this proposal appears to have a great deal of merit, and there would not be too much difficulty in controlling this type of contract.

6. However, it has been noticed in the past that although [REDACTED] considered equipment necessary for the furtherance of Agency's projects, your office did not concur and the equipment was picked up and returned.

25X1
25X1

7. It therefore would be appreciated if your office would review the Contractor's letters and indicate to this office by memorandum, whether you agree or disagree with his suggestions.

Dear 

From time to time we have received Government Furnished Equipment from your organization. In the past this equipment has been assigned to the individual Task on which it is being used. Much of this equipment was transferred from Task to Task while some of it has been transferred to Contract (RD)XG-558. In order to reduce record keeping we believe that all Government Furnished Equipment should either be assigned to Contract (RD)XG-558 or a separate bailment type contract should be entered into and all GFE transferred to that contract.

We will be glad to discuss this matter with you further if you so desire. The present method of having it scattered among the various Tasks requires a lot of clerical work both on our part and your part and we find it difficult to keep records up to date on this basis.

Very truly yours,

HDK: tt

Dear [redacted]

Re: RD-79, T. O. 7 and (RD)EG-558

We respectfully request that the following deliverable items of T.O. 7 contract RD-79 be transferred to the retainer contract (RD)EG-558.

Items transferred by request dated April 8, 1957 from T. O. 5 to T. O. 7, Contract RD-79

- 2 - Filters, R/VFP-2
- 2 - Filters, R/VFP-3
- 2 - Filters, R/VFP-4
- 2 - Filters, R/VFP-5
- 1 - Oscillator, precision, IM-4
- 1 - Oscillator power cable
- 1 - Oscillator output connector set (8 connectors)

Items constructed under T. O. 7 Contract RD-79

- 1 - Mounting assembly, dual
- 2 - Monitor panels
- 2 - Chassis, equipment
- 3 - Recorder mounts
- 1 - CS-3 system cable
- 1 - CS-3A system cable
- 1 - Test bench junction box
- 1 - Cable W-1203
- 1 - Cable W-1205
- 1 - Aircraft heater power box
- 1 - Aircraft Sw/Fuse Ind. Box
- 2 - Power supply filters
- 1 - Mounting assembly, single
- 1 - Recorder power conversion cable
- 1 - CU-4 Act. Amp. Power Cable
- 1 - CU-4 Act. Amp.
- 2 - CS-3 power supplies

It is contemplated that additional tests will be performed on the system from time-to-time. These tests will require use of the above-mentioned items.

The above items together with those shipped under T. O. 7 of RD-79 comprise all deliverable items called for.

Very truly yours,
